

Direct Vendor Links to iCONN Databases

These database vendor URLs bypass the iCONN federated search portal and authentication.

For these URLs to work properly: you must register your library's IP range(s) with each vendor's technical support department.

Vendor contact info can be found at: <http://www.iconn.org/staff/DatabasesContacts.aspx>

For non-IP authenticated access: *Contact each vendor's technical support about set-up options.*

-- EBSCO and Gale URLs allow library barcodes.

-- ProQuest can accommodate library barcodes, but libraries must contact ProQuest tech support to set up.
